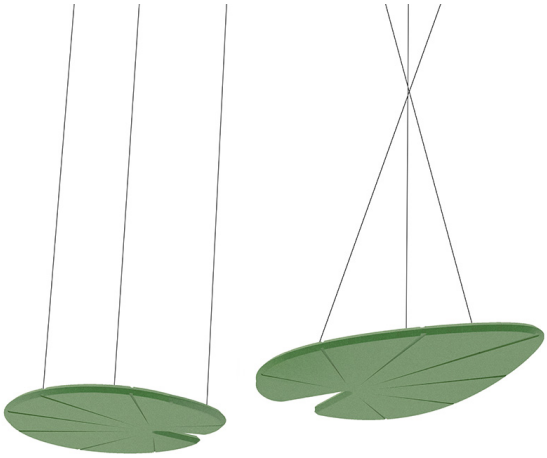
Reference: ACOUSTIC-FOREST-H

Name: FOREST Horizontal Ceiling Acoustic Panels



Organic-shaped acoustic panels bring softness and harmony to any space. Their rounded shapes not only enhance aesthetics but also optimize sound absorption to create more comfortable and functional environments. Horizontally positioned models are installed on the ceiling to control reverberation and improve overall acoustics, making them the perfect solution for open spaces and collaborative zones.

Main materials

Panel made of PET with a thickness of 9+9 mm.
Suspension system made of a 1.5 m long stainless steel cable.
Metal anchors.

Main features

Ceiling fixing for room separation.
Suspension system using a steel cable that allows different heights.
Lightweight panels for use on different ceiling types.
