

Reference: INTERAC-STANDARD

Name: Interactive monitor - Standard range

Cutting-edge interactive monitors from the STANDARD series, designed to enhance communication needs in the education and private enterprise sectors. These monitors are tailored for complete adaptation to each user's needs. Without the Android system, they feature 4K UHD resolution and built-in speakers made with high-quality materials. The outer casing is crafted from steel for maximum external protection. The 4mm tempered glass with minimal friction allows for agile use and maximum protection against potential impacts, enabling safe cleaning with any cleaning product. They come with a 3-year warranty and customer support in Spain and Portugal.

KEY FEATURES:

Without Android.
