Reference: CABINS-ROME100

Name: ROME100 - Individual acoustic booths

Individual work for global solutions. Carry out all kinds of individual tasks or hold phone calls, videoconferences, etc., without distractions and with maximum concentration.

The acoustic booths of the ROME series are composed of an internal metal structure and external panels made of carbon fibre mixed with high-resistance, lightweight polymer resins. Interior lining of the acoustic panels with upholstered finishes (100% polyester fabrics). Lower floor covering in high-resistance carpet.

Optional high work table (MDF or melamine depending on model).

Main materials
Outer walls made of 8 mm thick composite material.
Inner structure made of steel tube.
Inner walls made of injection-moulded engineering polymer.
The inner walls are fitted with a 9 mm thick PET film.
The PET film is colour-coated depending on the model.
Ceiling and floor made of 8 mm thick composite material.
Door made of 5+5 mm thick laminated glass.
Glass wall made of 8 mm thick tempered glass.
Surrounding door frame made of extruded aluminium.
Top made of 25 mm thick melamine-coated board or MDF.

Main features
MAIN DIMENSIONS
Interior dimensions: 86 x 110 x 215 cm.
Floor area: 0.95 m²
Table height: 108.7 cm.
Door opening direction right or left as required.
Levelling feet for perfect positioning included in the scope of delivery.
Castors included in the scope of delivery, to move the booth around the room when needed.
Recommended number of users: 1 person
Minimum installation area: 1.2 m²
Recommended number of people for assembly: at least 2
Assembly time: 2–3 hours

MAIN TECHNICAL FEATURES
LED lighting 11.5 W / 12 V
Colour temperature: 4000 K
Sound insulation of 30 dB.
Presence detector as standard.
Ventilation by 2 ceiling-mounted fans. Air inlet at the bottom.
Connection options: socket / USB-A / USB-C / mains connection
Power supply: 220–240 V / 50–60 Hz / 10 A
Length of external connection cable: 3 m
