Reference: CABINS-ROME600

Name: ROME600 - Acoustic booths max. 6 people

The possibilities of group acoustic booths create an ideal environment for teamwork, client meetings, supplier visits..., where confidentiality and collaboration must be at their highest without interruptions.

ROME series acoustic booths consist of an internal metal structure and external panels made of carbon fiber blended with high-strength, lightweight polymer resins. Interior of acoustic panels upholstered (100% polyester fabric). Floor base covered with high-resistance carpet.

Optional high worktable (MDF or melamine depending on model).

Main materials

Outer walls made of 8 mm thick composite material.
Inner structure made of steel tube.
Inner walls made of injection-moulded engineering polymer.
The inner walls are fitted with a 9 mm thick PET film.
The PET film is colour-coated depending on the model.
Ceiling and floor made of 8 mm thick composite material.
Door made of 5+5 mm thick laminated glass.
Glass wall made of 8 mm thick tempered glass.
Surrounding door frame made of extruded aluminium.
Top made of 25 mm thick melamine-coated board or MDF.

Main features

MAIN DIMENSIONS
Interior dimensions: 261 x 230 x 215 cm.
Floor area: 6.00 m²
Table height depending on final configuration.
Door opening system right/left as required.
Levelling feet included in the scope of delivery for perfect positioning.
Castors included in the scope of delivery, to move the booth around the room when needed.
Recommended number of users: 4–6 people
Minimum installation area: 6.60 m²
Recommended number of people for assembly: at least 4
Assembly time: 4–5 hours

MAIN TECHNICAL FEATURES
LED lighting 11.5 W / 12 V
Colour temperature: 4000 K
Noise reduction of 30 dB.
Presence detector as standard.
Ventilation by 16 ceiling-mounted fans. Air inlet at the bottom.
Connection options: 2 sockets / USB-A / USB-C / mains connection
Power supply: 220–240 V / 50–60 Hz / 10 A
Length of external connection cable: 3 m
