

Reference: CABINS-OSLO

Name: Soft Seating OSLO for ROME acoustic booths

The OSLO series modules are designed to offer maximum comfort in small spaces. Its elegant style and soft lines make it the perfect choice for integrating into ROME series acoustic booths. Ideal for quick meetings or focused moments in collaborative environments.

Main materials

Inner structure made of solid wood and high-strength plywood.
The structure is padded all around with foam.
Seat and backrest made of fire-retardant polyurethane foam with a density of 45 kg/m³.
Base frame made of 25 mm diameter steel tube.
Upholstery made of fire-retardant fabric, 100% polyester / 100,000 cycles.
Lower bumpers made of engineering polymer.

Main features

The chairs are delivered partially assembled.
Seat suspension: zig-zag steel spring system (No-Sag).
The compact dimensions offer a balanced ratio between comfort and space saving, ideal for use in acoustic booths.
Available finishes on request.
